

**Supplementary Figure 1.** Physical map of *CHRNA6-CHRNA6* gene region. A: Gene map and SNPs in *CHRNA6* and *CHRNA6* on chromosome 8p11.2-21. Coding exons are marked by black blocks, and 5' and 3' UTRs by white blocks. B: Haplotypes of *CHRNA6* and *CHRNA6*. Haplotypes with frequency >0.05 are used for further analysis. C: Linkage disequilibrium coefficient among *CHRNA6* and *CHRNA6* SNPs. CHRN: cholinergic nicotinic receptor, LD: linkage disequilibrium.
